Fee: Rs 60,000

- SMM
- Graphics
- Blog creation
- SEO
- YouTube
- E-commerce
- Affiliate marketing
- ASO
- Freelancing
- Google certification
- Internship

Graphics Designing (4 months)

Fee: Rs 35,000 (Discounted from Rs 60,000)

- Adobe Photoshop
- Adobe InDesign
- Adobe Illustrator
- Filmora VUi/UX
- Adobe XD

Free Freelancing

- Fiverr
- Upwork

Internship

- Adobe Premiere Pro
- Adobe After Effects

Artificial Intelligence (6 months)

Fee: Rs 60,000 (Discounted from Rs 80,000)

- Python basics: syntax, functions, data structures, OOP, file handling
- Math foundations: linear algebra, calculus, probability, statistics
- Data handling: NumPy, Pandas, data preprocessing
- Machine Learning: scikit-learn, supervised/unsupervised learning, evaluation metrics
- Deep Learning: neural networks, TensorFlow/Keras, CNNs, RNNs, LSTMs
- NLP: text preprocessing, embeddings, sentiment analysis, transformers (intro)
- Reinforcement Learning: basics, environments, Q-learning (intro)
- Deployment: model saving, APIs with Flask, deployment overview
- Capstone: AI project using real-world data, deep learning, and deployment
- Complete Project
- Freelancing
- Internship

Python Programming (Web Development) (4 months)

Fee: Rs 35,000 (Discounted from Rs 60,000)

- Python basics: syntax, variables, loops, functions, data structures, OOP, file handling, exceptions
- Data: NumPy (arrays, operations), Pandas (DataFrames, filtering, cleaning)
- Frontend: HTML, CSS, JavaScript, DOM, Fetch API
- Backend: Flask, routing, templates, forms, SQLAlchemy, REST APIs, authentication
- Full-stack: API integration, user sessions, testing, deployment (Heroku, Docker), Git
- Django Framework
- Capstone: Full-stack project with data processing, Flask backend, JS frontend, user auth, and deployment

Web Development (4 months)

Fee: Rs 35,000 (Discounted from Rs 60,000)

- HTML
- CSS
- Bootstrap
- PHP
- MySQLi
- JavaScript, AJAX & jQuery
- WordPress
- Complete project

Internship

- PHP Framework: Laravel

Free Freelancing

- Fiverr
- Upwork

Flutter App Development (4 months)

Fee: Rs 40,000 (Discounted from Rs 60,000)

Android App Development (4 months)

Fee: Rs 40,000 (Discounted from Rs 60,000)

- Java Fundamentals: Data types, control flow, OOP concepts (classes, objects, inheritance, polymorphism), exception handling
- Android Setup: Install Android Studio, configure SDK
- First App: "Hello World" using Java, project structure
- Activities & Lifecycles: Managing app screens and their states
- UI Design (Java): XML layouts, Java code to interact with Views (TextView, Button, etc.), Event Listeners
- Intents: Navigating between Activities
- Advanced UI: RecyclerView, Fragments, Adapters
- Data Storage: SharedPreferences, SQLite with Java, Room Persistence Library
- Networking: Java libraries for API calls (e.g., Volley, Retrofit)
- Background Tasks: Java Threads, AsyncTask (legacy), WorkManager
- Permissions: Requesting user permissions in Java
- Debugging & Testing: Using Android Studio's debugger, JUnit tests

Data Science (3 months)

Fee: Rs 40,000 (Discounted from Rs 60,000)

- Introduction to Data Science: What is Data Science? Data Science Process
- Data Analytics Fundamentals: Data Collection & Cleaning, Exploratory Data Analysis (EDA), Descriptive Statistics, Data Visualization
- Programming for Data Science: Python/R Basics, Data Manipulation, Data Visualization Tools
- Machine Learning in Data Science: Supervised/Unsupervised Learning, Model Evaluation, ML Algorithms
- Advanced Data Science Topics: Data Mining, Time Series Analysis, Big Data Technologies
- Deep Learning for Data Science: Neural Networks, CNNs/RNNs
- Data Science Applications: Case Studies, Projects, Data Ethics
- Complete Project
- Freelancing
- Internship

Amazon (3 months)

Fee: Rs 60,000

- VA (Virtual Assistant)
- FBA
- FBM (PLC)
- PPC
- Dropshipping
- Shopify
- eBay
- Google Ads
- Facebook Ads

Freelancing (-)

Fee: Rs 20,000

- Fiverr
- Upwork
- LinkedIn

MS Office (3 months)

Fee: Rs 20,000 (Discounted from Rs 30,000)

- MS Word
- MS Excel
- PowerPoint
- InPage
- Typing speed
- Windows & Software installation

SMM (Social Media Marketing) (2 months)

Fee: Rs 30,000

ASO (App Store Optimization) (2 months)

Fee: Rs 30,000

- Introduction of App Store Optimization

Account Title	SALMAN RAZA
Branch Code	5533
Account Number	55335000925593
IBAN	PK50ALFH5533005000925593
Branch Name	IBG Satyana Rd Faisalabad

SECTION 3: FREQUENTLY ASKED QUESTIONS

Q: Do you provide any certificate?

A: Yes, we provide a course completion certificate on successful completion of the training sessions.

Q: How is WAPEXP different from other institutes offering the same topics?

A: The topics would be the same, more or less. The major difference is our knowledge delivery method. Our expert trainers have mentored many students and given fulfilling careers to all of them. Our training is a combination of theory and practice for each module. We also provide live exposure on projects and give assignments to test your skill sets.

Q: Does WAPEXP offer fee installments?

A: Yes. WAPEXP offers fee installment plans in selected cases. Installment options are available depending on factors such as the course, scholarship status, promotional offers, and the student's circumstances. To confirm eligibility and available installment plans, please contact the WAPEXP Admissions Team with your desired course details.

Q: Does WAPEXP offer paid internships?

A: Yes. WAPEXP offers paid internship opportunities to selected candidates. Paid internships are primarily available for students who already possess professional-level skills and successfully meet the required technical and performance criteria. Candidates who demonstrate strong practical knowledge, complete the assessment process successfully, and perform well during evaluation may be considered for paid internship positions. Availability depends on current projects, vacancies, and business requirements.

Q: Are admissions open at WAPEXP?

A: Yes! Admissions are open at WAPEXP. We start new batches every month, so you can join the upcoming batch that best fits your schedule. Since seats are limited, we recommend registering early to secure your spot.

Q: Is there any discount or special offer available?

A: Yes! WAPEXP regularly offers discounts and special promotions based on student demand, seasonal campaigns, and scholarship opportunities. Contact our admissions team to learn about the latest offers currently available.

Q: Does WAPEXP offer discounts to individual students or only to groups?

A: WAPEXP offers discounts to both individual students and groups. However, group registrations usually receive more attractive discounts and special offers. Contact our admissions team to learn about the best discount available for you or your group.

Q: What makes WAPEXP different from other institutes?

A: WAPEXP stands out because of its 18 years of experience in IT education and skill development. We focus on practical learning and career growth, not just classroom learning. Here's what makes WAPEXP different: 18 years of industry experience in IT training; 5 software houses, providing students with real industry exposure; internship opportunities for every student during the course; job opportunities for eligible and high-performing students; freelancing training to help students earn through international platforms; business development training to help students build their own startups or businesses; hands-on projects to build practical experience; GitHub profile development with real project repositories; LinkedIn profile optimization to build a professional online presence; CV/Resume preparation to improve job applications; portfolio development showcasing projects and skills; interview preparation including technical and HR interview guidance; career counseling and mentorship to help students choose the right career path. At WAPEXP, we don't just teach technical skills — we prepare students for jobs, freelancing, entrepreneurship, and long-term career success.

Q: How does WAPEXP support its students?

A: Student success is one of WAPEXP's highest priorities. We provide continuous support before, during, and even after the course. Our student support includes: no extra fee for course repetition (if a student wants to repeat a course for revision or better understanding, WAPEXP does not charge any additional tuition fee, subject to batch availability); the ability to continue your course without paying again if you have to leave due to a genuine reason (according to WAPEXP's policy); lifetime support system for learning and career guidance; access to trainers for academic and technical assistance; career guidance for jobs, internships, freelancing, and business development; regular updates on new technologies and industry trends; and project support to help students complete practical assignments and portfolios. At WAPEXP, our relationship with students doesn't end when the course finishes — we are committed to supporting their learning and career journey for the long term.

Q: Does WAPEXP provide an internship letter?

A: Yes! WAPEXP provides an internship letter to every student who successfully completes the internship program. In addition, WAPEXP supports students with career opportunities by: providing an internship letter after successful internship completion; hiring outstanding performers for job opportunities within WAPEXP, based on performance and available positions; referring trained students to software houses for employment opportunities; and having a strong network with software houses in Faisalabad (FSD), helping connect qualified students with potential employers. We also offer career guidance, interview preparation, and job placement support to help students start their professional careers.

Q: Why is WAPEXP's team more professional and different from other institutes?

A: WAPEXP is a professional IT training institute with a strong focus on practical, industry-oriented learning. What makes our team different is that our trainers don't just teach — they actively work on real-world international projects and bring that experience into the classroom. All trainers are industry professionals with practical experience and work with international clients on real-time projects. Training is based on current international market demands, ensuring students learn the latest technologies and industry practices. We have 5 dedicated software houses where our trainers actively work and gain real industry experience, so students learn the same tools, workflows, and best practices used in professional software companies, with continuous mentorship from trainers who understand the latest trends in the global IT industry.

Q: Does WAPEXP offer demo classes?

A: No. WAPEXP does not offer demo classes because we believe that professional skills cannot be properly evaluated in just one or two demo sessions. A short demo does not reflect the complete learning experience, teaching methodology, or long-term value of a professional course. Instead, WAPEXP provides a one-on-one meeting with an experienced trainer to discuss the course in detail, an opportunity to ask questions and clear concerns before enrolling, guidance on the course structure and career opportunities, a dedicated career counseling team, and a personalized future roadmap based on your goals (job, freelancing, higher studies, or

business).

Q: Your course fee is too high.

A: We understand that course fees are an important consideration. However, WAPEXP offers professional training at an economical fee while providing much more value than just classroom learning. This includes: complete professional training with practical, industry-focused learning; FREE internship for every student during the course; freelancing training; job placement support for eligible students; real-world projects; GitHub, LinkedIn, CV, and portfolio development; unlimited course repetition without paying the tuition fee again (according to policy); and lifetime learning and career support after course completion. At WAPEXP, you're not just paying for a course — you're investing in practical skills, career opportunities, and long-term support.

Q: I can't afford the course fee.

A: We understand that every student's financial situation is different. If you have a genuine financial issue, WAPEXP will do its best to help. Depending on your situation, we may offer scholarship opportunities for deserving students (up to 50% scholarship for eligible applicants, subject to WAPEXP's scholarship policy and verification), installment plans for students facing temporary financial difficulties, and guidance from our admissions team to help you choose the most suitable payment option. Please share your situation with our admissions team so we can help you find the best possible solution.

Q: I'll think about it and let you know later whether I want to take admission or not.

A: No problem! Take your time and make the decision that's best for you. If you have any questions, concerns, or confusion, feel free to discuss them with us. However, we encourage you not to delay your learning journey unnecessarily, since every day you invest in learning brings you one step closer to your career goals. Whenever you're ready, WAPEXP will be here to support you.

Q: I need to discuss it with my parents first.

A: Of course! We highly encourage students to discuss their education decisions with their parents or guardians. If your parents have any questions, WAPEXP is happy to arrange a phone call with our professional counseling team, invite you and your parents to visit our office for a detailed counseling session, and explain the course curriculum, career opportunities, internships, scholarships, fee plans, and future roadmap so they can make an informed decision with confidence.

Q: Another institute is offering the same course at a lower fee.

A: That's absolutely possible. Every institute has its own teaching methodology, course structure, facilities, and pricing. At WAPEXP, we don't compare ourselves with other institutes; instead, we focus on providing high-quality, professional training and real career value. Our fee is based on the value we provide, including professional industry-oriented training, internship opportunities for every student, freelancing training, real-world projects, GitHub/LinkedIn/CV/portfolio development, career counseling and interview preparation, unlimited course repetition, and lifetime learning and career support.

Q: I can learn everything online for free.

A: Absolutely! If you prefer learning online, that's your choice, and there are many free resources available. However, professional learning is about much more than watching videos. At WAPEXP, you receive a professional mentor who guides you step by step, structured learning with a complete roadmap, hands-on practical projects based on real industry requirements, immediate guidance whenever you face difficulties, training aligned with current international market demands, internship and freelancing guidance, career support, and code reviews with personalized mentoring. Free resources are great for getting started but often lack personalized guidance, accountability, and practical industry exposure.

Q: What is the value of a WAPEXP certificate?

A: Yes, a certificate is important, but the skills you gain are even more valuable. WAPEXP is a government-registered private institute, and students receive a professional course completion certificate

after successfully completing the course requirements. The certificate can be included with job applications, internships, freelance profiles, and professional portfolios. Along with the certificate, students also build real projects, a GitHub profile, a LinkedIn profile, a professional CV, and a portfolio, which strengthen their career opportunities.

Q: Is the internship guaranteed?

A: Yes! WAPEXP provides an internship opportunity with every course because we believe practical experience is essential for building professional skills. Internships are conducted within WAPEXP's own software houses, where students gain practical industry exposure under the guidance of experienced professionals. High-performing students who meet WAPEXP's performance and working standards during the internship may be offered a paid internship, and outstanding interns may also be considered for future job opportunities within WAPEXP or referred to partner software houses.

Q: Is a job guaranteed after completing the course?

A: WAPEXP does not guarantee a job, because hiring decisions are ultimately made by employers. However, we are committed to helping students become job-ready through professional training, internship opportunities with every course, real-world projects, CV/LinkedIn/GitHub/portfolio development, interview preparation and career counseling, and job referrals and placement support for eligible students. If you develop professional-level skills, WAPEXP may offer you a job within its own organization or software houses, or refer you to partner software houses for employment.

Q: What if I don't understand the course?

A: At WAPEXP, this situation is very rare because our trainers focus on step-by-step practical learning and provide continuous guidance throughout the course. If you face any difficulty, our trainers provide additional one-on-one support, you can ask questions until concepts are clear, and you can repeat the course without paying the tuition fee again (according to policy). If the issue is due to WAPEXP's training or service, we have a fee refund policy as per our terms and conditions; however, the refund policy does not apply if a student is non-serious, remains absent without valid reason, or does not participate in the learning process.

Q: What if I leave the course in the middle?

A: No worries! WAPEXP understands that students may have genuine personal, family, educational, or work-related reasons for not continuing. That's why WAPEXP offers a Course Freeze Policy: if you have a genuine reason for leaving temporarily, you can request to freeze your course, and once your issue is resolved, you can resume the same course without paying the fee again (according to policy), continuing from an upcoming batch of the same course you originally enrolled in.

Q: What is WAPEXP's Fee Refund & Cancellation Policy?

A: WAPEXP believes in honest and transparent business practices. If a student takes admission but does not attend any classes, WAPEXP may provide a 100% fee refund according to policy. If a student has attended only one topic or up to two weeks of classes, they may be eligible for a 50% fee refund, provided the request meets WAPEXP's refund policy and the issue is related to the institute. If the issue is from WAPEXP's side and cannot be resolved, the refund is handled according to institute policy. The refund policy does not apply if a student is non-serious, remains absent without valid reason, or leaves the course by personal choice after using the training services.
